

## BioFusion Magnets - Shell and Coconut Biocomposites

Natural materials meet modern functionality

---

### Description

These minimalist round magnets bring a natural touch to your workspace through their elegant design and innovative biocomposite material. Crafted by combining the natural strength of bivalves and coconut fibres with synthetic or natural polymers.

Perfect for any magnetic whiteboard or planning surface, these compact magnets offer strong hold and effortless usability. Whether you're organising documents, highlighting priorities, or displaying reminders.

Their clean, natural finish complements modern office and home environments alike. Supplied in a pack of 10, these naturally inspired magnets bring a touch of the organic world to your workspace.

### Features

Strong magnetic hold ideal for whiteboard and planning boards

Available sizes: 10mm, 20mm, 25mm, 30mm and 35mm

Each pack contains 10 magnets

An innovative blend of natural and synthetic materials

Shell and coconut fibre biocomposite offers a sleek and modern aesthetic

### Integration and compatibility

Compatible with all magnetic boards.

### Personas

#### Nature-Inspired Designers and Architects

Professionals who value environmentally friendly materials and clean, modern aesthetics in their workspace. BioFusion Magnets are the perfect match for their design approach, offering functionality with a refined, natural touch.

#### Modern Office Professionals and Project Managers

Individuals who depend on planning boards and whiteboards to manage schedules, documents, or team communications. They need reliable, stylish magnetic accessories that reflect a well-organized and contemporary environment.

#### Students and Visual Creatives

University students, artists, and creative minds looking for practical and visually appealing tools to organize ideas, timelines, or visual references. The natural look and solid grip of the magnets support daily inspiration and productivity.

### Customer service and support

Our customer service and support team is always ready and available to provide prompt assistance, expert guidance, and effective solutions to address any customer inquiries or concerns.

### Customer feedback

*"These magnets are small but impressively strong! I love how the natural finish adds warmth and elegance to my workspace."*  
Pedro A.

### Benefits

#### Strong Magnetic Hold

Despite their compact size, BioFusion Magnets deliver excellent grip, ideal for securing papers, notes, and reminders to magnetic boards and surfaces.

#### Modern, Nature-Inspired Aesthetic

Made from an innovative blend of shell and coconut fibers, these magnets bring an earthy, organic feel that complements modern and minimalist environments.

#### Environmentally Friendly Materials

Crafted from biocomposite materials combining natural elements with advanced polymers, these magnets are perfect for users who seek products with a lighter environmental impact - without compromising on design or strength.

#### Available in Multiple Sizes

With diameters ranging from 10mm to 35mm, BioFusion Magnets adapt to a wide variety of organizational needs - from light reminders to thicker document stacks.
