

Bi-Office

Earth New Basic Magnetic Planner Board

Blends utility with minimalist design

Description

The **Bi-Office Earth New Basic Planner Board** introduce our new line of **eco-friendly boards**, a testament to our commitment to sustainability and environmental responsibility.

In addition to the **PEFC certification**, these **pine framed boards** were inspired by the **natural earth colours**.

Made from **high-quality materials**, this personal planner combine **usefulness** with a **minimalist** design that will look good with every decoration style. You can write and draw and erase them and do it all over again. Plus, you can use magnets to display items.

Easy to set up, this planner board is supplied with the **installation kit** and **instructions**. Last, but not least, its mounting fixtures are hidden.

Features

High-quality printed drywipe lacquered steel surface, ideal for frequent use

PEFC pine framed boards help to create a relaxed environment

Very effective and versatile solution to organise tasks, display information and images

Minimalist design fits in every office, home office or business decoration

Ideal to use in a gallery wall, customising your wall mounting kit included

Easy installation with wall mounting kit included

Earth New Basic Magnetic Planner Board

Blends utility with minimalist design

Integration and compatibility

Compatible with all drywipe markers, whiteboard erasers and magnets

Personas

Office Managers & Team Coordinators

These professionals rely on practical tools to streamline team planning and keep weekly goals visible. The Earth New Basic Planner Board's minimalist layout and eco-friendly design provide an elegant yet efficient way to display project timelines, meeting agendas, and task updates in shared office environments.

Remote Workers & Home Office Users

Individuals working from home benefit from the planner board's clean and structured layout, which helps maintain focus and productivity. The sleek framed design complements modern home décor while offering a clear space to organise daily priorities, deadlines, and reminders.

Educators & Academic Staff

Teachers, tutors, and lectures appreciate the planner board's user-friendly format, ideal for lesson scheduling, assignment tracking, and managing classroom activities. Its eco-conscious construction also aligns with institutional sustainability goals.

Students & Young Professionals

Students and early-career professionals use the planner board to manage study timetables, internship tasks, or job application tracking. Its minimalist design encourages regular use and helps cultivate organised habits in small study areas or shared housing.

Eco-Conscious Consumers

Environmentally aware users are drawn to the board's PEFC-certified materials and subtle, natural tones. It serves as a practical and stylish planning tool that aligns with their values and enhances their personal or professional space.

Customer service and support

Our customer service and support team is always ready and available to provide prompt assistance, expert guidance, and effective solutions to address any customer inquiries or concerns.

Customer feedback

"Simple, elegant, and incredibly useful. The minimalist layout keeps my week organised at a glance, and I love that it's made with eco-friendly materials. A great addition to my home office!"

- Sophie R.

Benefits

Eco-Friendly & Sustainable: Crafted with PEFC-certified materials, this planner board reflects a strong commitment to environmental responsibility while introducing natural tones that enhance any space.

Minimalist Aesthetic & Versatile Style: The sleek, frameless design and earthy colour palette blend seamlessly with a variety of interior styles, from home offices to collaborative workspaces.

Highly Practical & Organised Layout: The structured planner format help users manage weekly or monthly plans, appointments, and goals with clarity – ideal for boosting productivity in both personal and professional settings.

Durable & Reliable: Made with high-quality materials, this board is built to last through frequent updates and daily use, maintaining its clean appearance and functionality over time.

Easy & Quick Installation: Supplied with an installation kit and instructions, the board is simple to mount and ready to use in minutes, without the need for additional fixtures.

Low Maintenance: Designed for repeated use, the surface allows smooth writing and erasing, helping users maintaining a neat, clutter-free planning space with minimal effort..

Additional information

Clean and Maintenance: The drywipe surface of the Earth New Basic Planner Board is easy to maintain using a microfiber cloth, standard eraser, or whiteboard cleaning spray. Its high-resistance coating prevents ghosting or ink residue, ensuring the board looks fresh and clean even after prolonged, frequent use.

Ergonomic Use: Designed with lightweight and minimal structure, the planner board is easy to handle, install, and reposition, reducing user effort during setup or relocation.

Product Packaging Circularity: All packaging materials are composed of single-type, recyclable components, making them suitable for circular reuse. Approximately 100% of the packaging is recyclable, with around 80% of the total packaging content made from recycled material by weight.

Sustainability Metrics

Bi-silque is constantly working to improve itself and therefore the company metrics are dynamic. For this reason, we ask that in case you are interested in knowing more about our sustainability metrics that you please go to our website by clicking on the following link, as these figures are updated regularly here:

<https://www.bisilque.com/sustainability/>

Product Material Circularity

The product was developed taking into consideration the principals of a circular economy, allowing the product to be easily dismantled at the end-of-life to its most basic homogeneous materials, so that they can be recycled to make new other products, and therefore the product is approximately 100% recyclable. Additionally, the product components, have recycled content, and therefore the product based on their specificity and size have a recycled total content ranging from 14% to 20%.
