

BioFusion Magnets - Shell and Coconut Biocomposites

Biocomposite materials meet modern functionality

Description

These minimalist round magnets bring a distinctive look to your workspace through their elegant design and biocomposite material containing coconut and bivalves fibres. The material combines coconut fibres with synthetic polymers to create durable magnets for everyday use.

Perfect for any magnetic whiteboard or planning surface, these compact magnets provide a strong hold and effortless usability, whether you're organising documents, highlighting priorities or displaying reminders. Their clean finish complements both modern office and home environments.

Supplied in a pack of 10, these magnets combine contemporary design with materials inspired by natural resources.

Features

Strong magnetic hold ideal for whiteboard and planning boards

Available sizes: 10mm, 20mm, 25mm, 30mm and 35mm

Each pack contains 10 magnets

Biocomposite material combining natural fibres and synthetic polymers

Shell and coconut fibre biocomposite offers a sleek and modern aesthetic

BioFusion Magnets - Shell and Coconut Biocomposites

Biocomposite materials meet modern functionality

Integration and compatibility

Compatible with all magnetic boards.

Personas

Designers and Architects

Professionals who value innovative materials and clean, modern aesthetics in their workspace. BioFusion Magnets are the perfect match for their design approach, offering functionality with a refined, contemporary look.

Modern Office Professionals and Project Managers

Individuals who depend on planning boards and whiteboards to manage schedules, documents and team communications. They need reliable, stylish magnetic accessories that complement well-organised and contemporary workspaces.

Students and Visual Creatives

University students, artists and creative minds looking for practical and visually appealing tools to organise ideas, timelines and visual references. The clean design and strong magnetic hold support everyday creativity and productivity.

Customer service and support

Our customer service and support team is always ready and available to provide prompt assistance, expert guidance, and effective solutions to address any customer inquiries or concerns.

Customer feedback

"These magnets are small but impressively strong! I love how the natural finish adds warmth and elegance to my workspace."
Pedro A.

BioFusion Magnets - Shell and Coconut Biocomposites

Biocomposite materials meet modern functionality

Benefits

Strong Magnetic Hold

Despite their compact size, BioFusion Magnets deliver excellent grip, ideal for securing papers, notes, and reminders to magnetic boards and surfaces.

Modern, Contemporary Design

Made from a biocomposite containing shell and coconut fibres, these magnets feature a clean, contemporary look that complements modern and minimalist environments.

Biocomposite Material

Made from a biocomposite combining shell and coconut fibres with synthetic polymers, these magnets are designed to deliver strength and durability while maintaining a distinctive appearance.

Available in Multiple Sizes

With diameters ranging from 10mm to 35mm, BioFusion Magnets adapt to a wide variety of organizational needs - from light reminders to thicker document stacks.

Availability and shipping
