

Bi-Office

Kyoto BioFusion Mobile Easel

Mobile easel with modern biocomposite shell frame

Description

The Kyoto BioFusion Mobile Easel with a biocomposite shell frame is designed for offices, meeting rooms and collaborative spaces. Made from a shell-based biocomposite, it combines strength and durability with a contemporary design.

Its magnetic drywipe lacquered steel surface is easy to write on, clean and ideal for frequent use (10-year warranty), and can be used with flipchart pads or magnets. Lightweight yet sturdy, it features three locking casters for mobility, height-adjustable supports for user comfort and an integrated triangular connector that doubles as an accessories tray.

Designed with replaceable parts, detachable components can be reused, repaired or replaced to extend the product's service life. Perfect for schools, offices and training centres, it delivers versatility, practicality and a contemporary design for everyday collaboration.

Features

Easy to write on and clean magnetic drywipe lacquered steel surface, ideal for frequent use

Shell-based biocomposite frame with a contemporary, textured finish

Kyoto BioFusion Mobile Easel

Mobile easel with modern biocomposite shell frame

Integration and compatibility

Compatible with all drywipe markers and magnets.

Personas

Business Professionals

Individuals who regularly engage in meetings, presentations, and brainstorming sessions in professional settings, rely on a mobile easel to jot down ideas, sketch diagrams, and display information during discussions. The portable and versatile nature of the mobile easel structure allows them to easily move it between meeting rooms or take it to off-site meetings.

Teachers and Trainers

Professionals who conduct training sessions, workshops, or seminars can benefit from a mobile easel, as a visual aid to present concepts, take notes, and engage participants by encouraging them to contribute ideas or draw diagrams. The flipchart easel allows for easy organization and interaction during training sessions.

Event Planners and Presenters

Individuals involved in organizing conferences, seminars, or events can employ a mobile easel as part of their presentation setup. They can use it to display schedules, maps, or event-related information, enabling attendees to access important details and engage with the content.

Group Coordinators and Team Leaders

Professionals who facilitate group activities, collaborative projects, or team-building exercises utilize mobile easels to foster interaction and idea generation. They can write down and visualize group discussions, track progress, and guide participants through activities.

Customer service and support

Our customer service and support team is always ready and available to provide prompt assistance, expert guidance, and effective solutions to address any customer inquiries or concerns.

Customer feedback

"This easel is lightweight yet very sturdy! I love how the biocomposite design brings a modern touch to our meeting space. Super practical to move around."
Sofia M.

Kyoto BioFusion Mobile Easel

Mobile easel with modern biocomposite shell frame

Benefits

Versatility: This multifunctional tool combines a writing and display surface in one. This versatility allows users to write, draw, or sketch on the writing board surface while also being able to flip and display multiple pages or sheets of paper on the flipchart portion. It caters to various communication and presentation needs.

Portability: Mobile easels are designed to be portable and lightweight, making them easy to transport between different locations or rooms. This portability is beneficial for professionals who frequently conduct meetings, workshops, or training sessions in various settings or off-site locations.

Interactive Collaboration: The product encourages interaction and collaboration among participants. Users can write, draw, or contribute their ideas directly on the writing board during brainstorming sessions, group discussions, or training activities.

Reusability and Sustainability: Users can reuse the writing board surface multiple times by erasing or wiping off the content. This promotes sustainability by reducing the need for disposable paper or other presentation materials.

Biocomposite Materials:

Crafted from biocomposite materials combining shell-based materials with advanced polymers, these mobile easels offer strength and durability while maintaining a contemporary design.

Availability and shipping

Product available;
Lead Time: 3 weeks

Additional information

The drywipe surface is characterized by its ease of cleaning using a microfiber cloth, an eraser or a suitable whiteboard spray. In addition, its resistant surface ensures that no writing residue remains, even after prolonged use.
